The officials, it is reported, are doing everything possible to keep the dissolution becoming known, but the revolutionary paper published at Nagasaki, Japan, printed a special edition and circulated thousands of papers throughout Siberia giving the news.

The result was that the Far Eastern army corps held a meeting and decided to mutiny.

As a candidate for attorney general was speaking, some one shouted out "stop that fight over there." The government of Santo Domingo has sent 1,200 men from Moca against the revolutionists. It is believed a desperate civil war will follow.

Pitched Battle in Louisiana.

Lake Charles, La., Aug. 23.—A report has reached this city of a pitched battle in a Colorado Southern construction camp, 15 miles west of Oakdale, in which five white and five negroes were wounded, several fatally. The sheriff has sent deputies to the scene, but as it is remote from railway and telegraph lines, details are not yet obtainable.

New Haven, Conn., Aug. 23.—The forty-third annual convention of the American Veterinary Medical association began here Tuesday.

SWEEPING VICTORY FOR HOKE SMITH

Nominated for Governor of Georgia by Overwhelming Majority.

THERE WERE FIVE CANDIDATES

Smith Carried 108 of the 145 Counties of the State, Leading by Far All His Opponents—Howell and Estill Were Very Weak.

Atlanta, Ga., August 23.—Returns from all counties in the primary held yesterday show a wonderful triumph for Hoke Smith, who has won his race for Governor, after the most exciting campaign in the history of Georgia.

Hoke Smith, formerly allied with the railroads and corporations, made his fight against this element, and with a negro disfranchisement plank in his platform he rallied around him those who are prejudiced against the corporate interests and his victory is a most remarkable one.

The result of the primary shows that Hoke Smith will have at least 300 of the 366 votes in the State convention, and that he has carried 108 of the 145 counties in the State.

Clark Howell, editor of The Atlanta Constitution, carried only six counties, while R. B. Russell carried seven. J. H. Estill, editor of The Savannah News, carried only two counties, while J. M. Smith carried four. A few other counties to hear from will likely swell the Smith vote.

For the rest of the State ticket there has been little opposition, all of the present incumbents of the various State offices being candidates for re-election. Senator Bacon is unopposed and his re-nomination is assured.

In the primary the vote has been cast direct for the various candidates on the ticket. Under the Georgia State primary law, the candidate for Governor receiving the largest individual vote in each county is entitled to name the delegates to the State Democratic Convention from that county, each county being entitled to twice as many delegates as it has Representatives in the lower branch of the Legislature. The State convention will be held in Macon September 4th.

GAME WAS POSTPONED.

Fats and Leans Will Fight Out Their Troubles Today.

Owing to the rain on yesterday afternoon which prevented the much-talked-of and interesting game of baseball between the Fats and the Leans, the game was postponed until this afternoon, when it will be called promptly at 3:30 o'clock.

Manager O'Neill, who is "running the thing," felt very badly disappointed that the game could not have been pulled off as advertised, but he declared he did not have an opportunity to confer with the weather clerk until too late. He requests The Sun to state, however, that the game will be played this afternoon, rain or shine, and those who are booked as players had better bring their rubber coats along if they have any "superstition" about getting wet. "These Fat fellows are going to get 'soaked' anyway," he said, "for we are laying for them. They had just as well bring their rubber coats anyway."

All tickets sold for yesterday's game will be honored today. Let everybody come out, have an enjoyable afternoon, and assist a worthy cause, the cemetery fund.

Compliment to Mr. Lynch.

The appointment of Louis C. Lynch to be postmaster at Gainesville is an exceptionally good one. Mr. Lynch is a very courteous gentleman, whose only fault worth mentioning is that he is a Republican, but that fault in this case proved a virtue for it won him the office. His many friends, regardless of party, will rejoice in his good luck, but he will be missed from his desk by the patrons of the United States land office.—Levy Times-Democrat.

Unprepared for Situation.

Havana, Aug. 23.—President Palmer in an interview with the correspondent of the Associated Press Wednesday said: "Our situation at first was one of unpreparedness as is usual in such cases. We are taking a little time to prepare to cope with it. But there is positively no cause for alarm. The movement in Santa Clara province is small, in Mantanzas it is trifling and the bands in Pinar del Rio are smaller than reported and are poorly led."

DAVIS IN OKLAHOMA.

Special Representative of Fay-Sholes Typewriter is in West.

A letter received from R. C. Davis, special agent of the Fay-Sholes typewriter who is now touring the West, comes from El Reno, Oklahoma.

Mr. Davis is well known throughout Florida, having made this State his home for the past few years. He makes his headquarters in Jacksonville, but spends a part of his time here.

Mr. Davis is greatly interested in the politics of Florida, and next to his interest in the Fay-Sholes the political interest seems greater to him. In writing, he says:

"As you know, I left Florida before the second primary, and I am very anxious to learn the result of the contest for State's Attorney in the Eighth district. Kindly advise me at Lucumcare, N. M., as to the outcome."

Mr. Davis states that he had the pleasure of meeting Hugh Powell, formerly of High Springs, in Oklahoma, but did not give the name of the place. He says Mr. Powell is prospering, which will be glad news to his many friends here.

Bought Fine Stallion.

J. D. Stringfellow, who owns a fine stock farm near this city, has returned from Ocala. While there he purchased a fine stallion, a registered animal, which he proposed to place on his farm. The stallion has a pedigree from the best stock, and is a handsome animal. Mr. Stringfellow's friends are congratulating him upon his new possession.

Mr. Stringfellow is a lover, as well as a good judge, of fine stock and cattle. He has already a large number of fine Shorthorn cattle on his ranch, and only a few days ago disposed of a carload at fine prices. The Stringfellow stock farm is destined to become famous.

Everybody is rejoicing at this termination of a highly disagreeable incident between the two countries.

He Walked Far Too Far.

In a hotel in Berlin there is a night watchman who did not take kindly to the system adopted a few years ago requiring him to go through the hotel at certain hours and touch an electric button fixed up in various places. After much thought he fixed up an automatic arrangement on several of the buttons so that they would report at certain hours. Soon the button system got so out of order that the management abolished it. It was found necessary to keep watch in some way on the man, however, and finally a pedometer was given him to carry on his rounds which would register every step he took. All went well the first two nights thereafter, but on the morning following the third night the old man was missing. On search being made he was found sound asleep in the engine room, and the pedometer so attached to the piston rod of the engine that with every stroke it registered a step. It had been traveling all night, and when taken off it registered 212 miles.—Berlin Gazette.

The Scenic Marvel of Idaho.

The world is less familiar with the Snake river of Idaho than with any other river of importance in the United States, and yet it is our seventh largest river—more than a thousand miles long. It is one of the most wonderful and impressive waterways in the world. The few who have tried to follow its winding course through wild and forbidding extents of lava plateaus do not wonder that so little is known of it, for no railroads traverse the lifeless desert that borders it, and no boats for hundreds of miles at a stretch dare ply its waters. It is navigable for only 100 miles from its junction with the Columbia to the Idaho boundary and in several isolated sections of the interior. For the greater part of its course it flows through old and magnificent canyons of its own making through desolate and awful wastes, the result of vomiting craters and convulsions of the earth.—World's Work.

"Why?" asked Grace.

WALTER WHITE HAS DIED FROM WOUNDS

Was Shot Several Days Ago by Unknown Party N a: City.

LOCK JAW CAUSED DEATH

Coroner's Jury Was Summoned and Viewed Body, When Adjournment Was Taken Until Today—A Mysterious Case Which May be Sifted Down.

Walter White, the negro who was called to the door of his home at the Haile place near Alachua a few nights ago and shot by an unknown party, died at his home in this city at an early hour Thursday morning from lock-jaw, as a result of blood poisoning, which set in from the wound.

The story of the shooting of White has been told before. However, it may be repeated that about midnight of a certain night two weeks or so ago, some person called White at his home, and asked him to come to the door He opened the door, and immediately a charge of buckshot was directed at him from a gun. White jumped back in an attempt to close the door, but before he could accomplish his purpose another shot was fired, the contents of the gun taking effect in his abdomen and lower limbs.

White was brought to his home in Gainesville, where he has lingered until death came to relieve him of his pains.

White was well known in this section, having been raised here. He was regarded as a peaceable and deserving young man. He had been employed as a farm hand on the Haile plantation for sometime, and remarked after being shot that if he had an enemy he was not aware of it.

A coroner's jury was summoned, composed of W. L. Denham, E. P. Lavoe, C. E. Hays, L. C. Ellis, G. F. Mason and B. F. Dawkins. The jury viewed the body and adjournment was taken until this morning at 9 o'clock, when the case will be continued in Justice Colman's court.

Justice Colman is acting as coroner.

HUFF CHILD WAS BITTEN.

Father Passed Through City With Child and Dog En Route to Atlanta.

O. D. Huff, a prominent citizen of Evinston, passed through the city Thursday en route to Atlanta with a little four-year-old son whom he thinks was bitten by a dog afflicted with rabies.

Mr. Huff also had the dog boxed, and was taking it along with the child to the Pasteur Institute at Atlanta. He states that the animal acted queerly, suddenly jumping at the little fellow and biting him in the face. While there is no certainty that the animal was mad, Mr. Huff wants to be certain, and it is for this purpose that he is taking the child and the dog to Atlanta.

PRESIDENT BROWN IS COMING HERE

Will Meet the County Commissioners at Next Regular Session.

WANTS TO INTEREST THEM

Secretary Huffaker of the Fair Association Made a Good Talk at Last Meeting, But Report of County Association Was Not Forthcoming.

Hon. Thos. J. Laud Brown, president of the Florida State Fair Association and one of the most progressive citizens of Florida, expects to come to Gainesville on Tuesday, September 4, when he will meet the Board of County Commissioners and the Alachua County State Fair Association in the matter of securing an appropriation for the exhibit at the coming session of the State Fair, to be held in Tampa in November.

It will be remembered that F. L. Huffaker, secretary of the Florida State Fair Association, was here at the last regular meeting of the Board of County Commissioners. He appeared before that body, presented his argument, and explained to the board what a fine opportunity would be presented for Alachua county to again make a showing to the world—and a much better showing than last year, owing to the fact that the arrangement has been changed

Secretary Huffaker made a strong and able argument, but owing to the absence of a report from the Alachua County Fair Association for last year, no action was taken, and a resolution was passed requesting that this report be forthcoming at the next regular meeting. The commissioners felt inclined to favor the appropriation, but desired to receive first a report for the former year before any definite action was taken.

The report will be ready at the September meeting of the board, so the manager says, and in that event something may be done.

Mr. Brown writes that he will be here on the date of the commissioners' meeting, and will present the matter before that board clearly. Under the circumstances it would be rather suicidal on the part of Alachua county to refuse to make a reasonable appropriation, and it is believed there will be no trouble in this direction.

HAMPTONS AT SARATOGA.

Have Had a Fine Trip on St. Lawrence, Which They Have Enjoyed.

The Sun is in receipt of a letter from Hon. W. W. Hampton, requesting that his paper be forwarded to Saratoga, N. Y., until further notice.

Col. Hampton, who is spending the summer with his wife and family in the extreme northern section of the country, states in his letter that they have just returned from a trip from Thousand Islands to Montreal, P. Q. "It is a most beautiful and interesting trip," he said. "The St. Lawrence is the most magnificent stream I have ever seen."

After spending a week at Saratoga Col. Hampton and family expect to return to their home here.

JOLLY CAMPING CROWD.

Left Thursday For Haile's Sink on a Two-Day's Frolic.

A jolly camping crowd comprising "Chief Mogul" J. A. Carlisle, "Deputy Mogul" W. C. Matheson, together with Captain of Camp S. C. Tucker and a few other friends, hied themselves away to the shady shores of Haile's sink early Thursday morning, where, "far from the madding crowd," they will enjoy themselves on fish and other things which go with camp life for the next day or two.

A more good-natured camping crowd never left Gainesville, and it is needless to add that the party will make the best of this opportunity. They may have many thrilling stories to relate upon their return.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

There is real pleasure in chewing the best tobacco grown where the best tobacco grows—in the famous Piedmont country

CHEW WHAT YOU KNOW ABOUT

Made from thoroughly cured leaf grown in the Piedmont Tobacco belt

Only choice selections of this well matured and thoroughly cured tobacco is used in making SCHNAPPS. That's why SCHNAPPS and other of the Reynolds' brands, as shown by the Internal Revenue statistics for a fiscal year, made the wonderful growth of six and one-quarter million pounds, or a net gain of one-third of the entire increased consumption of chewing and smoking tobaccos in the United States.

Schnapps

Has less sweetening than imitations

Evidently, chewers cannot resist the flavor and they cheer SCHNAPPS because SCHNAPPS cheers them more than any other chewing tobacco and every man that chews SCHNAPPS passes the good thing along—one chewer makes other chewers—until the fact is now established that there are many more chewers and pounds of tobacco chewed, to the population, in those States where SCHNAPPS tobacco was first sold than there are in the States where SCHNAPPS has not yet been offered to the trade.

AND KNOW WHAT YOU ARE CHEWING

SCHNAPPS is like a cup of fine Java coffee, sweetened just enough to bring out its natural, stimulating qualities. SCHNAPPS pleases all classes of chewers: the rich, because they do not find a chew that really pleases them better at any price; the poor, because it is more economical than the larger 10c. or 15c. plugs and they get their money's worth of the real snappy, stimulating flavor so appreciated by tobacco lovers. All imitations contain much more sweetening than SCHNAPPS. They are made that way to hide poor tobacco improperly cured.

For the man who chews tobacco for tobacco's sake, there is no chew like SCHNAPPS.

Sold at 50c. per pound in 5c. cuts. Strictly 10c. and 15c. plugs.

With 50,000 women demanding his resignation, it looks as if Senator Smoot is entitled to a little sympathy from the man who has only one woman fussing with him.

Every year a market for human hair is held at Limoges. Girls, matrons and elderly women flock to it from the country round to obtain the highest prices for their tresses. White hair fetches the best price, gray hair comes next, and then flaxen and brown shades. Black hair is the cheapest of all.

An inquiring individual has discovered that the reason the marriage rate is declining is that there are too many good looking girls. Unable to choose from the feast of prettiness before him, a young man hesitates and waits until the marrying age has gone by and neither he nor the girls are any longer in a mind for matrimony.

Of course he is only a horse, maybe a livery horse at that, but he has feelings just the same, and you are a mighty sight poorer specimen of a man than he is of a beast if you do no respect them, particularly during the hot weather. Water often, stop for rest frequently, if the work is hard. Cut out the tightly drawn check rein, forget the whip, and let him jog along as easy as is possible. Just suppose, for instance, that you were a horse.

The so-called "potato king" is a shrewd negro by the name of Groves, who lives on a farm near Kansas City, Kan., and raises and sells more potatoes than any other man in the world. Besides his own production he buys and sells the potatoes of others. In Kansas City he maintains a commission office and employs some ten stenographers and book-keepers. Realizing that such a large business needs a well-trained head, he has sent his son first to the Kansas Agricultural College for an education and then to a business college for a business education.

THE TARIFF ON SALT.

Every three people, on the average, use a barrel of salt a year. The total amount consumed last year was 26,872,700 barrels, which included only 1,151,133 barrels imported from foreign countries. The tariff duty on salt is 12 cents per 100 pounds in packages and 8 cents per 100 pounds if imported in bulk. This amounts to 33.32 per cent duty on salt in packages and 83.16 per cent duty in bulk, according to the government statistics of imports for 1905. This large protective tariff duty allows the salt trust to charge about double the price salt would sell for than it would if the duty was abolished. So when the farmer buys a barrel of salt about one-half the price he pays is increased profit to the trust, because the trust is protected from competition. The salt imported in in packages cost in the country from which it was imported 40 cents per hundred pounds, and the salt in bulk 10 cents per hundred pounds. Salt can be made here at about the same cost as abroad, so the profits of the trust, it will be seen, are enormous. As the salt trust is protected by the tariff from 33 to 83 per cent, or an average of over 53 per cent, every family has to pay about double for what they use in consequence of this special protection to the trust. The salt trust is but one of the many trusts that plunders the American people, and yet the Republican leaders have decided to stand pat and let the plundering continue.

A press dispatch from Chicago reports that "the President does not deem the new meat-inspection bill watertight." Nor is that the worst of it, for the same dispatch says: "Under the new regulations the packers lose that which is declared unfit. If a more rigid examination is made before the cattle are shipped or offered for sale much of this loss would not fall on the packers" Secretary Wilson is in Chicago to arrange for close inspection of cattle at points of shipment. This can only mean that the Administration is trying to prevent loss to the beef packers and throw the burden on the farmers, but it would seem that the packers are amply protected, for they are not compelled to buy cattle that are not in good condition when they arrive at the stock yards. The farmers and stockraisers should insist on a square deal, and that the Administration carry out the law fairly and not attempt to protect the packers, who are quite able to care for their own interests.

These college professors may not be very far ahead of future legislation. We spend through Washington now $7,000,000 a year in developing plant life, but not a dollar to discover a preventive of pneumonia. In ten years the Department of Agriculture has expended nearly $50,000,000 in developing products of the soil, but there is no bureau with money for the development of the more than 1,000,000 infants every year. It is true that Drs. Wiley, Atwater and Benedict have done wonderful work, but within a limited sphere, in the preservation of infant life. While they have worried for a little money to carry on experiments, a million has gone in stamping out cholera among swine. Professor Norton estimates that during the next census period more than 6,000,000 of infants under two years of age must succumb, yet with proper knowledge of preventable diseases this number could be cut in two.

If a servant in Germany falls ill her mistress is not allowed to discharge her, but must pay 50 cents a day for her hospital expenses until she is perfectly well.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Being strictly a vegetable compound, it has no harmful or even unpleasant effects. Its action is gentle but none the less thorough—cleansing the stomach and bowels of all impurities, and toning up the entire system to a healthy condition—leaving the person feeling good, because every organ is made to perform its part perfectly.

The Cleveland Iron Age Review, in its last report of the iron and steel market, declares that "prices are advancing more rapidly towards those of the boom period of 1902 than conservative interests like to see." A the Steel Trust can fix the price of steel products in this country and is protected by the tariff from competition, the price it charges for its products is all the consumers can pay. When the price gets beyond that point consumption will decline and the inevitable boom-busting occur. If the tariff protection to the Steel Trust was reduced or abolished, the "conservative interests" would not have to fear, so why not help the Democrats to reform the tariff.

He was a thin, fragile young preacher, but not half so helpless as he looked. He could see and hear what was going on, even durning the last payer. Just before closing service he said calmly but with a good deal of impressiveness to the square inch: "Those in the congregation who did not get their things all on during the prayer can do so while I pronounce the benediction." During which, however, the audience could hear each other's watches tick.

The army scandal in the Philippines which is now being investigated shows that army officers and civilians have made it a practice to have their furniture made and repaired at the Government shops. Many officials are involved and it is said there is a bill of $5,000 against General Corbin. When will the scandals under this administration have an end, and not one-half has been told yet, and perhaps never will be unless a Democratic Congress is elected and investigates all the departments.

The report that if Secretary Taft should be elected President he would appoint Mr. Roosevelt Secretary of State, must be a silly summer story, for Taft knows he would have troubles enough without having foreign affairs kept at fever heat winter and summer. But then what is the good of worrying, for Taft won't be elected, even if nominated.

RUNNING SORES COVERED LIMBS

Little Girl's Obstinate Case of Eczema — Instantaneous Relief By Cuticura — Little Boy's Hands and Arms Also Were a Mass of Torturing Sores — Grateful Mother Says:

"CUTICURA REMEDIES A HOUSEHOLD STANDBY"

"In reply to your letter I write you my experience, and you are privileged to use it as you see fit. Last year, after having my little girl treated by a very prominent physician for an obstinate case of eczema, I resorted to the Cuticura Remedies, and was so well pleased with the almost instantaneous relief afforded that we discarded the physician's prescription and relied entirely on the Cuticura Soap, Cuticura Ointment, and Cuticura Pills. When we commenced with the Cuticura Remedies her feet and limbs were covered with running sores. In about six weeks we had her completely well, and there has been no recurrence of the trouble.

"In July of this year a little boy in our family poisoned his hands and arms with poison oak, and in twenty-four hours his hands and arms were a mass of torturing sores. We used only the Cuticura Remedies, washing his hands and arms with the Cuticura Soap, and anointed them with the Cuticura Ointment, and then gave him the Cuticura Resolvent. In about three weeks his hands and arms healed up; so we have lots of cause for feeling grateful for the Cuticura Remedies. We find that the Cuticura Remedies are a valuable household standby, living as we do twelve miles from a doctor, and where it costs from twenty to twenty-five dollars to come up on the mountain. Respectfully, Mrs. Lizzie Vincent Thomas, Fairmount, Walden's Ridge, Tenn., Oct. 13, 1905."

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

STREET CAR STRIKE ENDED.

Macon Street Car Men Return to Their Work in Macon.

Macon, Ga., Aug. 23.—At 5 o'clock Tuesday afternoon an agreement was reached which wipes out all differences between striking conductors and motormen and the Macon Railway and Light company and shortly after 6 regular schedules were resumed on all lines. More than one hundred union men are operating the cars at prices from 14 to 17 cents per hour, a regulated increase which the management volunteered before the crisis of Tuesday.

The agreement was reached through a board of arbitration composed of Ben L. Jones and A. T. Holt, for the railway company, and L. J. Kilburn and N. D. May for the strikers. No fifth man was needed or appointed.

The old men who have remained with the company are left first in line of promotion, but the union men are all given places as regular employes. The inexperienced men will be put aside for the former operatives in the runs of the system.

The work of the arbitrators resulted in a unanimous decision as announced. Without a murmur Manager Nyhan and the officials accepted the results and returned the union men to work with their well wishes.

Shreveport, La., Aug. 23.—While resisting arrest here late Tuesday night, James Hunter, 35 years old, was shot and killed by Policeman Charles Carpenter. The officer was taking Hunter into custody for alleged threats to criminally assault and kill a negro woman. The coroner exonerated Carpenter, as Hunter had tried to use a revolver.

TWO OPEN LETTERS

IMPORTANT TO MARRIED WOMEN

Mrs. Mary Dimmick of Washington tells How Lydia E. Pinkham's Vegetable Compound Made Her Well.

It is with great pleasure we publish the following letters, as they convincingly prove the claim we have so many times made in our columns that Mrs.

Pinkham, of Lynn, Mass., is fully qualified to give helpful advice to sick women. Read Mrs. Dimmick's letters.

Her first letter:

Dear Mrs. Pinkham:—

"I have been a sufferer for the past eight years with a trouble which first originated from painful periods—the pains were excruciating, with inflammation and ulceration of the female organs. The doctor says I must have an operation or I cannot live. I do not want to submit to an operation if I can possibly avoid it. Please help me."—Mrs. Mary Dimmick, Washington, D. C.

Her second letter:

Dear Mrs. Pinkham:—

"You will remember my condition when I last wrote you, and that the doctor said I must have an operation or I could not live. I received your kind letter and followed your advice very carefully and am now entirely well. As my case was so serious it seems a miracle that I am cured. I know that I owe not only my health but my life to Lydia E. Pinkham's Vegetable Compound and to your advice. I can walk miles without an ache or a pain, and I wish every suffering woman would read this letter and realize what you can do for them."—Mrs. Mary Dimmick, 59th and East Capitol Streets, Washington, D. C.

How easy it was for Mrs. Dimmick to write to Mrs. Pinkham at Lynn, Mass., and how little it cost her—a two-cent stamp. Yet how valuable was the reply! As Mrs. Dimmick says—it saved her life.

Mrs. Pinkham has on file thousands of just such letters as the above, and offers ailing women helpful advice.

Bryan Will Visit Jersey City.

Jersey City, N. J., Aug. 23.—Robert Davis, the Democratic leader of Hudson county, announced Tuesday night that William J. Bryan would visit Jersey city on Saturday Sept. 1. Mr. Davis and the committee will escort Mr. Bryan to the Cateret club where he and his party will be entertained. From the club Mr. Bryan will be driven to a stand in Jersey avenue, where he will review the Democratic clubs. It is expected that fully 10,000 Democrats will be in the line of march. After the parade Mr. Bryan will deliver speeches in the Elks' hall and St. Peter's hall. Former Mayor Edward Hoos is chairman of the reception committee.

Cured Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Suicides in Presence of Family.

St. Louis, Aug. 23.—Surrounded by his wife and two small children, Otto Radcke stood in front of a mirror and watched the pallor surmount his face and the agonized contractions of his muscles until he dropped to the floor dead from the effects of carbolic acid he drank with suicidal intent. He denied to his wife that he had taken poison and she stood by his side too frightened to move until after her husband was dead.

The cabinet has unanimously declared Senor Mendoza, former minister to the United States, a traitor for revealing diplomatic secrets.

New York, Aug. 23.—A decision was reached Wednesday by the attorneys of Harry K. Thaw that Thaw's defense to the charge of killing Stanford White will be a plea of emotional insanity. This will include as a part of the defense the declaration that Thaw's insanity existed only until after White was killed and that Thaw is now sane again and has been since the killing.

MENU FOR THE SNAKES.

Feeding Inmates of Reptile Houses Requires Close Attention.

The various kinds of snakes in captivity do not eat once a day, as animals do, but take their food at intervals varying from a day or two to a month. Turtles and lizards which are active are fed every other day, but the big constructing snakes, which lie coiled in the same position for a week at a time, do not require a meal oftener than once a month. As a rule the smaller snakes are fed every ten days, while the boas and pythons receive their food every three weeks.

Nearly all the big snakes have the habit of fasting for indefinite periods. After feeding regularly for three or four months a python will steadily decline food for about the same period, after which it again begins feeding voraciously.

During these long fasting spells the keepers follow their charges' actions with close attention, for it is at these times that the dreaded canker may form in a serpent's mouth, and unless immediately counteracted by antiseptic washes it becomes dangerous and often fatal. A three months' fast of a healthy snake never worries the keeper, for the reptile usually begins feeding again without the slightest sign of emaciation.

A most elaborate menu is required in the reptile house. The constrictors eat rabbits, chickens and pigeons, while rats, mice and sparrows are eaten by the smaller snakes. Lizards eat large quantities of mealworms, which are varied by flies caught in traps through the summer months. Quantities of fish are fed to the alligators and water snakes, while vegetables of many kinds are the food of the tortoises and herbivorous lizards.

If a live rabbit or chicken were cast into the cage containing six or eight big snakes trouble would be inevitable. Several of the reptiles would seize the creature at the same time, and in the constriction that followed all would become tangled in such knots that the smaller snakes would fare badly. If, after the prey is killed and a large snake begins to swallow it, a smaller snake is persistent in its hold on the prey, the small snake may find a resting place in the elastic interior of its cage mate.

The feeding of a cage of pythons is an operation which requires time and skill. The first thing done is to separate the big fellows, which lie sociably coiled in a great mass. The keeper then hands them their chickens and rabbits one by one, keeping many of the snakes covered with blankets to prevent fighting. To throw the food at random into the cage would result in the more powerful specimens eating everything, besides fighting among themselves.

The poisonous snakes are the most difficult to keep in captivity. They are so nervous that the slightest noise causes them to spring in a coil of defense, and these reptiles often deliberately starve themselves to death. Because of this nervousness the poisonous snakes are usually fed at night, when the reptile house is absolutely quiet. This disposition belongs only to the viperine snakes. Though the cobras are always on the lookout for trouble they eat regularly and voraciously.—Baltimore Herald.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

The Hudson Bay Company.

In 1670 Charles II. granted a charter to the Hudson Bay company, giving to that association the whole and sole trade and commerce on the waters lying within the entrance of the Hudson strait and on the lands adjoining. After the cession of Canada to Great Britain in 1763 the Northwest Fur company of Montreal sprang into existence, and by its competition with the older corporation compelled an amalgamation in 1821.

KEEP THE LIVER CLEAN.

Don't Overwork It and Give It a Rest Once In Awhile.

A man of common sense and a doctor at that said: "The liver is misunderstood and underestimated in its functions. If it can be kept clean and active there is no reason why we should ever be ill a day, and we should live to be 150 or 200 years old. It is not necessary to rip this organ all to pieces with ten grains of calomel to get it stirred up. The best thing to do is to shut off your food supply for two or three days, drop your whisky and claret, your tea and coffee, and give your liver a chance to rest. This should be done once a month."

It is well known, of course, that in olden times the liver was supposed to be the seat of the affections. Friends when they met in the morning did not salute each other with "How's your health?" but with "How's your liver?" Men take horseback exercise principally for their livers. A good shaking up every morning drives away the cirrhotic-biliary encroachment. It is an error to assume that whisky alone produces cirrhosis. Overfeeding is more often the cause. If the digestive organs would organize a union and work only eight hours a day all of us would be healthy and long lived. The trouble is we require the liver, stomach, bowels, heart, brain, muscles, nerves, kidneys, spleen, etc., to work all the time and overtime. Wrong. Give them a rest.—New York Press.

Why Fret and Worry

When your child has a severe cold? You need not fear pneumonia or other pulmonary diseases. Keep supplied with Ballard's Horehound Syrup—a positive cure for colds, coughs, whooping cough and bronchitis. Mrs. Hall, of Sioux Falls, S. READ THIS.

STEVENSON, Ala., June 6, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am Yours truly,

W. C. DANIEL.

A TEXAS WONDER.

Mr. Hyde, who has for years been a resident and business man, as well as a very prominent citizen, owns extensive gold and silver mining interests, and twice a year makes trips to the West to look after them. It will be remembered that shortly after the great earthquake he was in San Francisco, and brought as a souvenir of the fatal occasion a bended fencing sword to Col. I. E. Webster of this city, which Col. Webster yet has and will always retain with a great deal of appreciation.

Mr. Hyde expects to be absent about six weeks or two months.

A Jolly Crowd.
